Wedding Shadow

Accompany Damian to one of his weddings

- Spend the day with Damian at one of his weddings – one to one
- Learn how Damian photographs a wedding as it happens
- First hand experience of photographing a full wedding without the pressure
- Real wedding photographs for your portfolio
- Choose the type of wedding you want to experience and it's location

Accompanying Damian to a wedding effectively combines the 'How a wedding works' workshop with real wedding experience.

You will benefit from watching Damian 'in action' and seeing the theory put into practice. You will be able to talk to Damian about every aspect of the day and taking as many photographs as you want throughout the day free from any pressure. These photographs will be a much better addition to your portfolio than a simple 'Bride & Groom' model shoot.

Price: £600 + vat per wedding

Add a wedding shadow to one of the combined workshops and receive a discount.

See 'Combined Workshops' for details

Please note: Damian photographs weddings all over the country

Bespoke model shoot

- Professional or 'real' models
- All wedding locations catered for

Would you like some time to experiment with your technique without the pressure of a real wedding? Model shoots can be arranged for any combination of 'wedding guests' - from the Bride and Groom, through to parents and siblings etc. Professional models can be used as can 'normal people' who don't know how to be photographed for a more realistic experience.

A model shoot can not only help with your photographic technique but also look at ways of dealing with people in what can be a stressful environment.

Please get in touch to discuss your requirements.

Price: from £500 + vat for a whole day with a 'Bride & Groom'
